The Hardware brings together scanner advances with trusted communication capability.

- Connects to most Apple® iOS devices

- Single or dual charging

- Instant visual display of prints on the iOS screen

- Indicator lights for low battery, charging mode and image quality

- WiFi capability (via iOS device) enables:
  – secure transmitting of prints to your Print Vault®
  – email, Air Drop, or Air Print

- Compact size: 3.28"L x 2.5"W x 0.71"H

- Minimum operating temperature: 40°

- Meets FBI standards for fingerprint quality

The Software is Meadow Hill's proprietary Thumbies® app, available for free on iTunes®.
The application:

- Assesses quality of, and scores, each print per standards set by the National Institute of Standards & Technology (NIST)

- Records each print with:
  – individual's full name
  – date and time the print was taken
  – digit that was printed
  – your business address
  – print taker's initials
  – date of birth *(if living)* / date of death *(if deceased)*
  – notes *(e.g. witness name, toe tag number, etc...)*

- Stores additional searchable data in your Print Vault®:
  – case number
  – male / female designation
  – living / deceased designation
  – unique session ID# for Family Direct Orders
